Proven PERFORMANCE

Our success is rooted in the belief that our customers are hard-working people all around the world. That's what drives us at Pyramex. We're constantly advancing our product line and exceeding the highest industry safety standards through research, design and, most importantly, your input. Pyramex is proud to be recognized as a company that is flexible and easy to do business with. We build our business on long term relationships at the customer level as well as the supplier (vendor) level. When you work with us, you will always have human interactions – no automated system. This is just part of who we are. We only succeed when you succeed. This work ethic has made us a market leader with distribution in more than 60 countries. Try on a Pyramex product and you will see and feel the difference. ***PERFORM AT YOUR PEAK.***

HOW TO ORDER

Pyramex products are available for sale through authorized distributors. When you call in, you'll always talk to a safety expert, ready to serve your business and meet your needs.

☎ phone: 800.736.8673 or fax: 877.797.2639

carhartt 

Carhartt has a long history of providing honest workers with honest products. They know their consumers don't just "do" their job. They live it. They don't just work. They outwork. They never stop moving. Carhartt is known for making durable and long-lasting products that provide the dependability hard workers require. **OUTWORK THEM ALL.**

Clamshell

Capture Clam

Polybag for Display Box

On the front lines, on patrol, or on the range, Venture Gear Tactical protects your eyes so you can accomplish your objective. All Venture Gear Tactical eyewear is built with the highest quality materials and pass Ballistic High Velocity Impact standards [MIL-PRF-32432], providing you with premium quality and protection. You can trust that your eyes are protected from even the harshest conditions when you choose Venture Gear Tactical. **ACCOMPLISH YOUR OBJECTIVE.**

All safety eyewear meets ANSI Z87.1+ standards (•) and provides 99% protection from harmful UV rays. All lenses are hard coated polycarbonate scratch-resistant. Some options meet Canadian CSA Z94.3 (•) – SEI third-party certification or Ballistic MIL-PRF-32432 High Velocity Impact (•) standards. For specific lens options visit our website or contact your sales representative.

**You know the job.
We know the protection.**

Headgear Certifications

All Pyramex headgear products have been independently tested for various standards and certifications. Use the quick key (ANSI CSA) on the following pages to reference product models that meet these standards and certifications. Use the dots (••) next to each part number to reference which options meet the standards and certifications. Some exceptions may apply.

ANSI

- ANSI Z89.1 (hard hats)
- ANSI Z87.1 (brackets and face shields)
- ANSI Z87.1+ (polycarbonate face shields)

CSA

- Cert. Mod. - CAN/CSA Z94.1-15 –  third-party certification

UNDERSTANDING ANSI/ISEA Z89.1 & CSA Z94.1 - 2015

American National Standard for Industrial Head Protection & Canadian Standards Association

Type 1 Top Impact

ANSI: Type I hard hat is designed to reduce the force of impact on top of the head. CSA: Type I hard hat provides impact and penetration protection for the crown only.

Class E Electrical

Class E provides the highest level of protection from high-voltage shock (up to 20,000 volts) and is especially well suited for electrical work.

Class G General

Class G is an all-purpose, general hard hat that provides good impact and penetration protection, but it offers limited voltage protection (up to 2,200 volts).

Class C Conductive

Class C does not offer electrical protection.

Source: Occupational Health & Safety

Ridgeline® Cap Style ANSI

ABS material – strong, yet ultra-light for seemingly weightless protection

Low profile design – offers a low center of gravity for better balance

Available with 4- and 6-point ratchet suspensions

Swinging hinge points allow you to find the most comfortable position on the back of your head

4-position harness points allows you to move the harness forward, backward, up or down – allowing for the most optimal position for ultimate comfort

Easy to grasp knob adjusts the suspension from 6½ to 8 head size

Rear padded suspension – provides additional level of comfort on the wearers' neck

Replaceable ratchet suspensions available

Replaceable sweat band - padded fabric and polyurethane foam

Vented pressure pad keeps the straps in place providing an additional level of comfort

Universal accessory slots fit cap mounted earmuffs and accessories

Ridgeline cap style hard hats pass reverse orientation, high temperature (HT) and low temperature (LT)

Ridgeline vented cap style hard hats are rated Class C and do not meet Class E or G safety standards for industrial head protection

Custom imprinting available

CHICUP

ANSI Z87.1

Face shield hard hat brackets (adapters) meet ANSI Z87.1 (•) standards. Polycarbonate face shields also meet ANSI Z87.1 + high impact requirements. Face shields offer secondary protection and must be worn with spectacles or goggles. For specific options, visit our website or contact your sales representative.

Polyethylene Face Shield

Meets ANSI Z87.1
 8" x 15" | .040" thick
 Universal slots will accommodate a wide variety of headgear
 Shown with HGBR - sold separately

Part No.
 S1010 •
 PYS1010R* •
 *Pyramex retail packaged product on page 43.

Aluminum Bound Polyethylene Face Shield

Meets ANSI Z87.1
 8" x 15" | .040" thick
 Aluminum bound allows shield to bend into preferred shape
 Universal slots will accommodate a wide variety of headgear

Shown with HGBR – sold separately
Part No.
 S1015 •

Dark Green Tinted Polyethylene Face Shield

Meets ANSI Z87.1
 8" x 15" | .040" thick
 Not IR resin – use for heat and glare
 Universal slots will accommodate a wide variety of headgear

Shown with HGBR – sold separately
Part No.
 S1035 •

Tapered Polycarbonate Face Shield

Meets ANSI Z87.1+
 8" x 15" | .078" thick
 Provides 99% UVA/B/C protection
 Universal slots will accommodate a wide variety of headgear

Shown with HGBR – sold separately
Part No.
 S1110 •

Polycarbonate Face Shield

Meets ANSI Z87.1+
 8" x 15" | .040" thick
 Provides 99% UVA/B/C protection
 Universal slots will accommodate a wide variety of headgear

Shown with HGBR – sold separately
Part No.
 S1020 •

Aluminum Bound Polycarbonate Face Shield

Meets ANSI Z87.1+
 8" x 15" | .040" thick
 Aluminum bound allows shield to bend into preferred shape
 Provides 99% UVA/B/C protection

Universal slots will accommodate a wide variety of headgear
 Shown with HGBR – sold separately
Part No.
 S1040 •

Steel Wire Mesh Face Shield

Meets ANSI Z87.1+
 8" x 15.5"
 Provides good airflow for comfort
 Does not accommodate the HHAAD hard hat adapter

Shown with HGBR – sold separately
Part No.
 S1060 •

Tapered IR5 Polycarbonate Face Shield

Meets ANSI Z87.1+
 8" x 15.5" | .078" thick
 Provides 99% UVA/B/C protection
 Universal slots will accommodate a wide variety of headgear

Shown with HGBR – sold separately
Part No.
 S1150 •

Cylinder Polycarbonate Face Shield

Meets ANSI Z87.1+
 8" x 15.5" | .078" thick
 Provides 99% UVA/B/C protection
 Universal slots will accommodate a wide variety of headgear

Shown with HGBR – sold separately
Part No.
 S1210 •

Cylinder IR5 Polycarbonate Face Shield

Meets ANSI Z87.1+
 8" x 15.5" | .078" thick
 Provides 99% UVA/B/C protection
 Universal slots will accommodate a wide variety of headgear

Shown with HGBR – sold separately
Part No.
 S1250 •

New Hire Kits

Intruder® – clear lens [S4110S] or gray lens [S4120S]

Type R Class 2 vest – lime [RVZ2110] or orange [RVZ2120]

SL Series hard hat – white cap style with 4-point snap lock suspension [HP14010] or white full brim 4-point ratchet suspension [HP24110]

Disposable corded earplugs – NRR 32dB / SNR 36dB [DP1001]

Poly-Torq™ PU glove – 13 gauge nylon liner [GL401]

Intruder meets ANSI Z87.1+, CE EN166, CSA Z94.3 and AS/NZS 1337 standards. All lenses are hard coated polycarbonate scratch-resistant and provide 99% protection from harmful UV rays. Hi-vis work wear meets ANSI/ISEA 107-2015 Type R Class 2 standards. SL series hard hats meet ANSI Z89.1, CSA Z94.1 - 2015, Type 1, Class C, G, and E for industrial head protection standards. Disposable corded earplugs meet ANSI S3.19 and CE EN-352:2002 standards. Gloves meets European EN388:2003 standards. Contents are subject to change.

Ridgeline® Forestry Kits

Ridgeline ratchet headgear – [HHABCMR]

Ridgeline cap style hard hat with 4-point ratchet suspension – white [HP44110] or hi-vis orange [HP44141]

Cap mounted earmuff – NRR 27dB [CM6010]

Face shield – steel wire mesh [S1060]

Ridgeline Series

FORKIT10	HP44110, HHABCMR, CM6010 and S1060
FORKIT41	HP44141, HHABCMR, CM6010 and S1060

Ridgeline headgear meets ANSI Z87.1 standards. Ridgeline hard hat meets ANSI Z89.1, Type 1, Class C, G, and E for industrial head protection standards. Cap mounted earmuff meets ANSI S3.19 standards. Face shield meets ANSI Z87.1 standards for wire mesh. Face shield offers secondary protection and must be worn with spectacles or goggles.

SL Series Forestry Kits

SL series ratchet headgear – [HHABCMS]

SL series cap style hard hat with 4-point ratchet suspension – white [HP14110] or hi-vis orange [HP14141]

Cap mounted earmuff – NRR 27dB [CM6010]

Face shield – steel wire mesh [S1060]

SL Series

FORKIT10SL	HP14110, HHABCMS, CM6010 and S1060
FORKIT41SL	HP14141, HHABCMS, CM6010 and S1060

SL series headgear meets ANSI Z87.1 standards. SL series hard hats meet ANSI Z89.1, CSA Z94.1 - 2015, Type 1, Class C, G, and E for industrial head protection standards. Cap mounted earmuff meets ANSI S3.19 standards. Face shield meets ANSI Z87.1 standards for wire mesh. Face shield offers secondary protection and must be worn with spectacles or goggles.

UNDERSTANDING NIOSH

National Institute for Occupational Safety and Health

N95 Designation

N95 respirators are respiratory protective devices designed to achieve a close facial fit and efficient filtration of airborne particles. N95 designation means the respirator blocks at least 95% of very small particles but not resistant to oil.

Disposable Particulate Respirators

N95 – 95% efficient respiratory protection in non-oil areas

Ultrasonically welded straps eliminate the need for staples

Straps are latex free

Shell is durable and keeps structure under heavy humidity

Soft, smooth outer and inner layer is comfortable on the skin

Inner foam strip reduces the potential for eyewear fogging

Outer aluminum adjustable nosepiece holds shape for proper fit

Use Against:

NIOSH approved for protection against particulate aerosols free of oils. Pyramex recommends this respirator for use against particulates containing materials such as flour, iron ore, coal and minerals.

Do Not Use Against:

Vapors, paint spray, oil-based aerosols, asbestos and sand blasting

Any contaminant whose concentration is unknown, or immediately dangerous to life

Concentrations of dust and mists which exceed the maximum use of concentration or 10 times contaminant's permissible exposure limit established by OSHA

Part No.	Description	Size
RM10	N95 Particulate Respirator	One Size Fits Most
PYRM10C*		

*Pyramex retail packaged product

Part No.	Description	Size
RM10V	N95 Particulate Respirator with One Way Valve for Easy Exhalation	One Size Fits Most
PYRM10VC*		

*Pyramex retail packaged product on page 43.

Disposable Respirators meet the NIOSH standard for N95 particulate respirators. For specific options visit our website or contact your sales representative.

Part No.	Description
HCW100	100 Individually Packaged Alcohol Free Hygienic Wipes

Note: HCW100 are safe and effective for cleaning respirators, hard hat suspensions and other personal protective equipment, but not to be used on disposable particulate respirators.

Eyewear Features

Pyramex has an extensive line of eyewear for a variety of applications. Use the icons below to quickly find some of the most requested features for safety eyewear.

 ADJUSTABLE NOSEPIECE	 ADJUSTABLE TEMPLES	 CO-INJECTED TEMPLES	 DIELECTRIC	 DUAL PANE LENS	 FOAM PADDING
 INCLUDES STRAP	 LOCKING TEMPLE	 MULTI LENSES	 POLARIZED OPTION	 RATCHETING TEMPLES	 RUBBER NOSEPIECE
 RUBBER TIPS	 VENTED FRAME	 VENTED LENS			

Eyewear Certifications

All Pyramex eyewear products have been independently tested for various standards and certifications. Use the quick key (ANSI CE CSA AS BALLISTIC) on the following pages to reference product models that meet these standards and certifications. Use the dots (•••••) next to each part number to reference which options meet the standards and certifications.

ANSI	• ANSI Z87.1+ High Impact
CE	• CE EN 166
CSA	• Cert. Mod. - CAN/CSA Z94.3 -15 -  third-party certification
AS	• AS/NZS 1337
BALLISTIC	• MIL-PRF-32432 High Velocity Impact Standards

Lens Treatments

H2MAX Anti-fog Coating

The innovative technology behind the **H2MAX** creates a high performing, superior anti-fog coating that is durable enough to withstand repeated cleaning without losing adhesion. Not only does this premium treatment ensure maximum clarity in the most extreme temperature and humidity conditions, but it also adds a layer to the lens that is abrasion and chemical resistant. The **H2MAX** anti-fog coating is made from non-hazardous environmental components. Coating resists scratching from steel wool up to 100g weight. **H2MAX** passes ANSI Z87.1 standards, CE standards for N and K, and Canadian certification CAN/CSA Z94.3.

H2X Anti-fog Coating

H2X provides anti-fog, anti-scratch, and anti-static protection. Even after repeated cleanings, **H2X** will continue to be effective because, the coating is bonded to the lenses. The **H2X** anti-fog coating is made from non-hazardous environmental components. Coating is waterproof with excellent scratch resistance. **H2X** passes ANSI Z87.1 standards and Canadian certification CAN/CSA Z94.3.

Lens Technology

Polycarbonate Lenses

All Pyramex safety eyewear utilize polycarbonate lenses. Polycarbonate lenses are up to 10 times more impact-resistant than plastic or glass lenses and provide 99% protection from the sun's harmful UV rays. They are lightweight and include a scratch-resistant coating to prevent surface scratches.

Photochromic Lenses

Photochromic lenses change from clear to dark, after exposed to direct UV light. Changes from dark to clear, after removed from UV light.

Polarized Lenses

Polarized lenses eliminate glare, increase visual clarity and enhances contrast all while reducing eye strain. We offer polarized options in forest green, sky red mirror, green mirror, blue mirror and gray.

Lens Colors and VLT

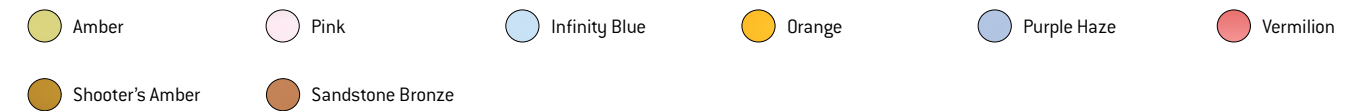

When light passes through a lens, some of it is absorbed and some of it is reflected back. The amount of light that passes through is known as the visible light transmission (VLT) and is represented by a percentage. Lens colors with a higher percentage of VLT will be lighter and allow more light to pass through, while lens colors with a lower percentage of VLT will be darker, blocking more light from reaching your eyes.

Clear 91%	Amber 89%	Photochromic 84%	Pink 82%	Infinity Blue 71%	1.5 IR Filter 66%
Arc 64%	Orange 61%	Light Gray 52%	I/O Mirror 51%	Purple Haze 43%	Vermilion 38%
Coffee 27%	Multi-color Mirror 27%	Shooter's Amber 27%	Sandstone Bronze 27%	Bronze 23%	Gray 23%
Sun Block Bronze 20%	Antique Mirror 18%	Blue Mirror 18%	Gold Mirror 18%	Green Mirror 18%	Silver Mirror 18%
Mango 16%	Sky Red Mirror 14%	Ice Blue Mirror 13%	3.0 IR Filter 11%	Smoke Green Mirror 11%	Forest Gray 10%
Ice Orange Mirror 10%	Smoke Green 10%	Dark Gray 7%	5.0 IR Filter 2%		

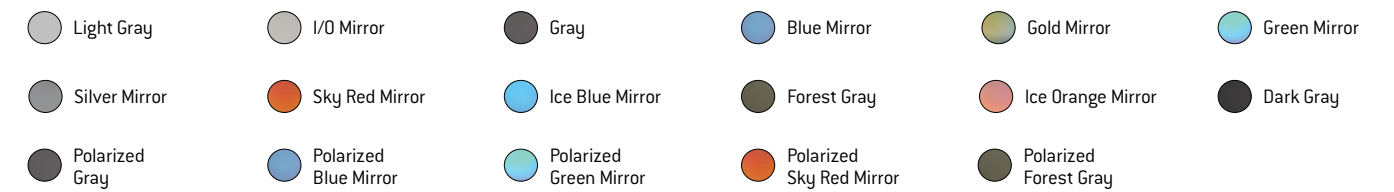

Applications

Use our suggested lens color guide to help decide which lens is best for the task at hand.

Enhance Contrast

Excessive Glare

Indoor Use

Low Light

Outdoor Use

Welding

! Note: 1.5 IR is designed for peripheral personnel and visitors who are NOT exposed to direct IR radiation. Arc is great for use under the welding helmet – allowing welder to see work clearly without suffering "welder's flash burn" from surrounding welders.

UNDERSTANDING Sealed & Foam Padded Eyewear

Sealed and foam padded eyewear are often ideal options for dusty or windy work environments. Many of our sealed and foam padded eyewear products also come with features like sealed rubber gaskets, interchangeable temples, and goggle straps, which make them easily customizable.

Isotope™ ANSI CE CSA BALLISTIC

Dielectric
Interchangeable temples and neoprene strap
Temples adjust to three different lengths

UNDERSTANDING Full Frame Eyewear

Full frame glasses feature lenses that are surrounded and held in place by a sturdy frame, making them perfect for a multitude of job applications or for leading an active lifestyle. They also tend to provide a closer fit than half frame or frameless options. We have an array of frame colors, patterns, and shapes to help you achieve the look that's right for you.

UNDERSTANDING Half Frame Eyewear

Half frame glasses blend the breathability of a frameless design with the durability provided by a full frame. Many of our half frame options come with an adjustable nosepiece feature allowing them to function and fit much like regular glasses. They are ideal for any application where both durability and an unobstructed line of vision are equally important.

Ever-Lite® ANSI CE CSA

- Soft nosepiece for snug fit
- Slim co-injected temples
- Lightweight spectacle – 22 gm

UNDERSTANDING Frameless Eyewear

Frameless eyewear perfectly couples simplicity and style allowing them to work in applications and environments where a full field of vision is ideal, if not essential. Because they are lightweight and provide the wearer with an unobstructed view, they are excellent choices for those who are required to wear eye protection for long periods of time.

UNDERSTANDING Over The Spectacle Eyewear

Over the spectacle eyewear is intended for those who require additional protection over their prescription glasses. They are designed with channels built in to accommodate another pair of temples, meaning you never have to remove your prescription glasses to comfortably achieve the protection you need.

UNDERSTANDING Goggles

Goggles provide protection against a variety of different potential hazards, including things like chemical splash, flying particles, wind, sun glare, and dust. No matter what unique protection your application or environment requires, with features like thermo and anti-fog lenses, open and close ventilation systems, and removable face shields, we have goggles to meet your needs.

V2G-Plus® ANSI CE CSA AS BALLISTIC

- Includes a wide adjustable elastic strap with quick release system for secure fit
- TPU frame features excellent resistance to cold and heat
- Thermo Lens System provides excellent resistance to fog caused by temperature differences in your environment
- Special indirect ventilation system located at the top and bottom of frame allows airflow and heat release
- Multi-functional goggle with 180° vision protects against chemical splash, sun glare, dust, flying particles, and wind
- Outer polycarbonate lens protects against the environment while an inner acetate lens prevents fogging
- Inner lens is separated by a thin spacer of air and sealed together with foam
- Passes Ballistic MIL-PRF-32432 High Velocity Impact standards
- Passes D3: Droplet and Splash Test – provides protection from droplets and splashes

Part No.	Black Body with Strap
GB6410SDT	AF Clear Dual Pane H2X
GB6420SDT	AF Gray Dual Pane H2X

ANSI Z87.1 CE EN166 CSA Z94.3 AS NSZ1337 BALLISTIC

All safety eyewear meets ANSI Z87.1+ standards (●) and provide 99% protection from harmful UV rays. All lenses are hard coated polycarbonate scratch-resistant unless otherwise noted. Some options meet European EN166 (●), Canadian CSA Z94.3 (●) – SEI third-party certification, Australian AS/NZS 1337 (●) or Ballistic MIL-PRF-32432 High Velocity Impact (●) standards. For specific lens options visit our website or contact your sales representative.

V2G-Plus Rx Insert

- Accommodates -3.0 to +3.0 prescription lenses
- Securely snaps into place above nosepiece
- Includes micro-fiber storage case
- Take insert to local optometrist for Rx lens installation

Part No. RX6400

Capstone® Shield ANSI CE CSA

- Fully adjustable elastic band
- Fits over prescription glasses
- Lens is coated to prevent fogging
- GG504DTSHIELD goggle has a dual pane lens
- Soft vinyl goggle body conforms to facial contours
- Passes D3: Droplet and Splash Test – provides protection from droplets and splashes
- Removable vent caps allow the user to remove when more ventilation is required or leave in place for unsurpassed chemical splash resistance
- Goggle combined with removable shield provides full face protection
- Four ventilation holes provide airflow
- Ratchet shield allows user to open or close in three positions for adjustment
- Polycarbonate shield conforms to the face offering increased impact and dust protection

Part No.	Lens and Shield
GG504TSHIELD	AF Clear H2X
GG504DTSHIELD	AF Clear Dual Pane H2X
GG504TSHIELDIR3	AF 3.0 IR Filter H2X
GG504TSHIELDIR5	AF 5.0 IR Filter H2X

Note: Only the goggles for GG504TSHIELDIR3 and GG504TSHIELDIR5 contains IR dye. Due to the nature of the vented holes, the shield is only green tinted and does not contain the IR resin.

Capstone Face Shield and Strap

Part No. CAPSHIELD
Ratcheting shield includes strap and clips allowing the user to add to either of the Capstone 500 Series goggles. Sold as a replacement shield for GG504TSHIELD and GG504DTSHIELD.

Disposable Capstone Shield Visors

Part No. VPACK6
Pack of 6 clear disposable, tear-off visors, suitable for high dust or muddy working environments.

Part No. CAPSTRAP
Not shown – strap to convert other Capstone goggles to hold VPACK6.

Capstone® RL **ANSI CE CSA**

- Replaceable lens
- Fits over prescription glasses
- Indirect ventilation system prevents fogging
- Co-material goggle provides superior protection against dust entry and chemical splash

UNDERSTANDING Welding Helmets

Auto-darkening

Auto-darkening helmets are designed for maximum efficiency— and maximum safety. Designed to darken instantaneously at the light of a welding torch and clear up when the torch is turned off. The variable shade is intended to eliminate the process of lifting and lowering the helmet in order to see. Because an inactive lens often rests at either shade 3 or 4, seeing and starting the arc while still staying protected is easy. Auto-darkening helmets run off of solar power and batteries.

Passive

Passive helmets are known for their reliability and maintainability, which have made them staples for many welders. Though they lack many of the bells and whistles of auto-darkening helmets, they often provide better optical clarity.

ANSI Z87.1 CE EN175 | EN379 | EN166 CSA Z94.3

Welding helmets meet ANSI Z87.1+ (●) and Canadian CSA Z94.3-07 (●) standards – SEI third-party certification. Some options meet European EN175:1997 for shells, EN379:2009-7 for filters, EN166:2001 for cover plates (●) standards. For specific lens options, visit our website or contact your sales representative.

LEADHEAD

Auto-darkening Helmets ANSI CE CSA

Note: Auto-darkening helmets are suitable for all types of electro-weldings: covered electrodes, MIG/MAG, TIG/WIG, plasma welding, cutting and laser welding (only selected models with two shade ranges, i.e. 5-8 and 9-13), except for gas welding.

- Soft PVC goggle body, durable ABS lens holder
- Elastic strap holds goggle firmly in place
- Indirectly vented to reduce fogging and control the influx of liquids

Part No.
WG200 •

ANSI Z87.1 **CE EN166** **CSA Z94.3** **AS NSZ1337** **BALLISTIC**

Welding products meet ANSI Z87.1+ (•) standards. Some options meet European EN166 (•), Canadian CSA Z94.3-07 (•) standards – SEI third-party certification, Australian AS/NZS 1337 (•), or Ballistic MIL-PRF-32432 (•) standards. For specific lens options, visit our website or contact your sales representative.

IR Face Shields **ANSI**

Meets ANSI Z87.1+
Tapered polycarbonate face shield
Shown with HGBR – sold separately

Part No.
S1150 • 5.0 IR Filter

Meets ANSI Z87.1+
Cylinder polycarbonate face shield
Shown with HGBR – sold separately

Part No.
S1250 • 5.0 IR Filter

IR Eyewear **ANSI CE AS BALLISTIC**

Capstone® Shield

Part No. **Lens and Shield**

GG504TSHIELDIR3 ••	AF	3.0 IR Filter H2X
GG504TSHIELDIR5 ••	AF	5.0 IR Filter H2X

! Note: Only the goggles for GG504TSHIELDIR3 and GG504TSHIELDIR5 contain IR dye. Due to the nature of the vented holes, the shield is only green tinted and does not contain the IR resin.

V2G®

Part No. **Black Frame**

GB1850SFT •••	AF	5.0 IR Filter H2X
GB1860SFT •••	AF	3.0 IR Filter H2X

Cooling 152 – 155

Bandanas • Hard Hat Pad • Neck Shade • Skull Caps • Towels

Ergonomics 156 – 161

Back Support • Elbow Sleeve • Knee Pads • Knee Sleeve • Wrist Wrap

Industrial Solutions 44 – 161

BY OFFERING A FULL LINE OF PPE

Work gets tough. We believe that finding the perfect safety gear shouldn't be. Let us assist you in finding the right solution for your specific needs.

BY PROVIDING INNOVATIVE DESIGN

Safety is our top priority, which makes providing safety gear that fits at the forefront of innovation our number one goal. A long history of listening to the needs of our customers has allowed us to introduce products like the I-Force® with H2X anti-fog technology and the lightweight Ridgeline® hard hat made out of ABS material.

BY PUTTING CUSTOMERS FIRST

Without our customers, we couldn't do what we do, and we are always working to better your experience no matter if you are local or global. We not only offer product customization but also private label solutions for customers looking to promote their business. Additionally, when you call in, you speak directly to one of the many knowledgeable members of our Customer Service team, meaning you receive real solutions without the wait. Also enjoy same day shipping as well as a risk-free 90 day guarantee.

There's more to see at PYRAMEXSAFETY.COM

Pyramex Safety is excited to introduce our new website and customer account access portal. This service will help you Perform At Your Peak.

Retail Solutions 8 – 43

Eyewear • Earmuffs • Electronic Earmuffs • Combo Kits • Displays

PROGRAMS CUSTOMIZED FOR YOU

Our proven programs are customized, offering you flexible solutions that produce keystone margins while allowing for multiple turns on inventory. With our personalized customer service experience, you receive the tailored support you require to maximize sales.

BRANDS YOUR CUSTOMERS KNOW

Through working closely with major distributors, buy groups, and co-ops, we are able to offer you competitive pricing on some of the most well-known brands on the market, including Carhartt®, Ducks Unlimited®, Venture Gear® and Venture Gear Tactical®.

MERCHANDISING SOLUTIONS

Our branded displays allow you to maximize floor space. We also put your needs first by offering customized planograms and retail-ready packaging.

Pyramex PROMISE

At Pyramex, our promise to our customers is to provide the best possible products, the best possible service, and most importantly, an attitude of making our customers' lives easier on a day-to-day basis. Our values challenge us toward a commitment to truth and to deliver what we promise.
